

# EMEREC Tablet

## Pokini TAB A10

### The modern tablet with a robust design suitable for fire fighting operations

In case of an emergency you have to rely on the right hardware. A modern design combined with resistant materials make this Tablet-PC to a reliable tool for emergency forces. Although the high resistance rating against environmental influences, the computer appears thin and modern. And this concept and design is continued with the comprehensive accessory.

And thanks to the use of the latest Intel® Technology the tablets gets along without a fan!
